

Viking Pure Solutions uses electrolyzed water, or e-water, technology to create two solutions: PureClean and PureSan.

PureClean is sodium hydroxide, a highly powerful all-natural alkaline water surface cleaner. PureSan is hypochlorous acid (HOCl), the same thing your body produces in response to an infection.

These two solutions are safer, and most importantly, infinitely more powerful than the harmful chemicals commonly used as cleaning agents today.

Viking Pure's patented technology produces HOCl without salt, making it safe for broad application in commercial and residential environments. And with onsite generation of the solutions, our partners can create them on demand and never run out.

Electrostatic sprayer technology works by sending a positive electric charge through the sanitizing solution, causing it to be attracted to negatively charged surfaces like two poles of a magnet. This technology removes the liability of human error from the sanitizing process.

Surfaces that may have been missed by manual cleaning or even hidden from plain sight are misted by the e-sprayer automatically. The process ensures that any contaminated areas are sanitized and all pathogens destroyed. This technology is invaluable in preventing the spread of germs, illness and disease.

Safer and stronger than bleach.
A new standard of purity.

HOCl kills either on contact or in seconds:

- FLU
- Norovirus
- Rhinovirus
- MRSA
- HIV
- All known bacteria, superbugs, fungus

Industries include:

- Industrial and commercial facilities
- Gyms, schools and religious institutions
- Stadiums and athletic arenas
- Any environment in which people congregate and can become a breeding-ground for germs and bacteria

Viking Pure's patented-HOCl leaves **NO POTENTIAL** for adaptive resistance.

Effectiveness at Killing Viruses, Bacteria, Prion, Super Bugs	●	●	●	●	●	●
Can be used on packages and food	●	●	●	●	●	●
Time to kill virus	●	●	●	●	●	●

Viking Pure Solutions uses a specific HOCl that is:

Safer and stronger than ANY traditional cleaning chemicals

Non-corrosive to sensitive equipment

Meets the strength/efficacy requirements for sanitizing hospitals.

All natural and green certified

The chemicals that our society has come to rely on are harmful to our health, our wallet and our planet. Viking Pure Solutions offers a better way. Give your patrons and employees the comfort of working in a sterile, safe environment. Protect your people, protect your business.

Safer and stronger than bleach.
A new standard of purity.
